To whom it may concern:

We have had the pleasure of working with Craig Shilling from Southern Benefit Group. Not only did Craig help us with new insurance plans, he explained the discount we, the employer, would receive upon joining the Cobb Chamber of Commerce, was patient in explaining all facets of our proposed insurance plans both to management and the employee and offered additional supplemental insurance plans in order to reduce employee costs.

Southern Benefit Group's unique strategy, in-depth knowledge of health insurance and extensive portfolio of product solutions helped us identify savings over our health insurance renewal. We were able to add benefits to lower our out-of-pocket costs that we did not offer before and were included with our savings. I would highly recommend meeting with Southern Benefit Group and trust they will continue their excellent service with you as we have experienced.

If you have any questions or concerns, I would be happy to assist.

Thank you,
